

Solid and Hazardous Waste Management (#9)

Mindfulness

Community agreement

Where are we and where are we going?

- ▶ case study -> project goal and objectives -> task schedule -> intervention to improve the health of the Earth system

Funding opportunity for interventions?

- ▶ <https://president.columbia.edu/content/presidents-campus-collaborative-fund>

Adventure choose

- ▶ Finish brownfield case study share?
- ▶ Intro goal and objectives?
- ▶ Case study group work?
 - ▶ Aside: slides helped deepen my understanding of my case study.
- ▶ Discussion on project connections, common themes, and interdependence?

Thursday's share out reflection

- ▶ Purposes of share outs:
 1. Help problem solve any group issues or issues with the project.
 2. Share information/learn about other waste management facets not covered by our groups' project.
 3. Collective accountability: maintain progress on projects so we can achieve our goals (learning + **impact**).
- ▶ Can share outs be improved?
 - ▶ Collective Group Questions Doc

Early course feedback survey

- ▶ Specificity helps
- ▶ Can be anything to do with class time, groups, out of class activities and research, the website, etc.
 - ▶ Survey is anonymous
- ▶ Focus on learning, not necessarily comfort and ease

Thursday's class

- ▶ Review survey and feedback; discussion
- ▶ Discuss early project themes, dependencies, and tensions?
- ▶ Group work?
- ▶ Share outs?
